**2013/14 GENERAL RATE APPLICATION**

**UNDERTAKING PROVIDED BY: D. RAINKIE**

---

**Centra Undertaking No. 10**

Centra to clarify whether the variance explanation in PUB I-18(b), 2009/10 (page 2 of 7) for Meter Changes is correct

**Response**

The variance explanation provided by Centra is still correct. In 2009/10 Centra was aware that the compliance rules would change and wanted to ensure that all our meters in-service were in compliance with existing standards. Per PUB/Centra I-70(a), approximately 4000 more meters were changed in 2010 than 2009. It is noted that Centra fully ramped up meter exchanges for future new compliance requirements in 2011.
