

MANITOBA HYDRO

2012/13 & 2013/14 ELECTRIC GENERAL RATE APPLICATION

UNDERTAKING PROVIDED BY: V. WARDEN

Manitoba Hydro Undertaking #87

Manitoba Hydro to estimate the incremental EFTs per year associated with the preparation of the distribution asset report.

Response:

Manitoba Hydro has spent an estimate of 0.3 EFTs in 2011/12 and 0.3 EFTs in 2012/13 associated with the preparation of the distribution asset report, equivalent of approximately 1200 hours over the 2 year period. Please note that this does not include time and expense required to compile the data and input into the various systems from which the report was produced.
