

ELECTRIC GENERAL RATE APPLICATION 2015**Manitoba Hydro Undertaking #13**

Manitoba Hydro to determine whether Manitoba Hydro sold power during the 500 kV outage last October with energy that was purchased above and beyond the amounts that are shown as delivered in the NEB table.

Response:

Physical deliveries to the US in October 2014 totaled 334,609 MWh as reflected in the total of all deliveries under the NEB permit information provided on page 12 of Appendix 11.20 (revised) Export and Domestic Revenue MFR3. Total deliveries included 187,890 MWh of dependable sales with the balance comprised of bilateral opportunity sales, MISO market sales and border accommodation sales.

In addition to the 187,890 MWh of US dependable sales supplied from the Manitoba Hydro system in October 2014, 8,123 MWh (or 4% of total dependable sales) was supplied through market purchases.
