

NEEDS FOR AND ALTERNATIVES TO (NFAT)**La Capra Associates Undertaking # 100**

La Capra to indicate if Mr. Hahn has any experience giving evidence with respect to hydroelectric power

Response:

Since joining La Capra Associates, Mr. Hahn has testified before the Rhode Island Public Utilities Commission regarding a proposed purchased power agreement between National Grid and Black Bear Hydro. Mr. Hahn has also performed an extensive asset valuation of the generating facilities of Public Service of New Hampshire, including 10 hydroelectric facilities. A report summarizing the results of Mr. Hahn's analysis was filed with the New Hampshire Public Utilities Commission. Prior to joining La Capra Associates, Mr. Hahn worked at Boston Edison Company, where he was responsible for power system planning from 1984 through 1991. The analyses and studies performed by Mr. Hahn during this timeframe included assessing the impact of existing and future hydroelectric facilities in the supply mix of Boston Edison Company and the New England Power Pool, including but not limited to imports from Hydro-Québec.
