

1 **SUBJECT:**

2
3 **REFERENCE:**

4
5 **PREAMBLE:** La Capra indicates that MH's planning criteria are "very conservative
6 with respect to the consideration of energy imports" and that this is a revised
7 policy

8
9 **QUESTION:**

10 Please provide La Capra's assessment of all impacts of Hydro's decision to revise its policy. Is it
11 possible to revise the economic and/or financial modeling to indicate if different resource plan
12 would be preferred absent this change in import policy?

13
14 **RESPONSE:**

15
16 Please refer LCA's Supplemental Technical Appendices 3B and 9B, which includes an analysis of
17 an alternative scenario with a higher import limit.
