3 **PREAMBLE:**

4 Elenchus states at iii: "Forecasting over a 20-year time horizon has many associated risks."

5

6 **QUESTION:**

7 Please state and provide the source material that describes how Manitoba Hydro escalated or increased
8 its load forecasts from the end of the 20-year period to the end of the 35-year detailed economic
9 evaluation period, and then how Manitoba Hydro escalated or changed its load forecasts from the end
10 of the 35-year detailed period to the end of the 78 year financial evaluation study period.

11

12 **RESPONSE:**

13 Elenchus does not possess any source material beyond review of the 2013 load forecast and can provide
14 no further detail in response to this question.

3 **PREAMBLE:**

4

5 **QUESTION:**

6 Does Elenchus deem an economic analysis that is based upon a 78 year planning period to be
7 reasonable? Why or why not?

8

9 **RESPONSE:**

10 Elenchus would suggest that with respect to the load forecast report that this question is out of scope of
11 our review.
