**APPLICATION BY MANITOBA HYDRO FOR AN INTERIM  
EX PARTE ORDER APPROVING INDUSTRIAL SURPLUS  
ENERGY, SPOT MARKET REPLACEMENT ENERGY RATE,  
SCHEDULE B-2**

By Order No. 101/95 dated October 20, 1995 The Public Utilities Board (the "Board") approved Manitoba Hydro's ("Hydro") application for Industrial Surplus Energy (ISE), Rates, Terms and Conditions including Schedule B-2 which is a Minimum Spot Market Replacement Energy Rate. The Board did not approve an Energy Cost Adjustment to be added to the minimum rate because the variables that will determine such an Energy Cost Adjustment cannot be forecast accurately until there is an actual interruption of ISE Service. By subsequent application when the Spot Market Replacement Energy Rates are to come into effect, Hydro is required to file a revised Schedule B-2 including the energy cost adjustment to be forecast at the time of interrupting ISE Service.
