

Undertaking #5

MPI to advise of the effective date of the 2014 MCT guideline referenced on page 10 of the DCAT report. They will also explain why the January 2015 guideline was not utilized for the DCAT period ending February 28, 2015

RESPONSE:

The MCT used for February 2015 was the final version dated December 2014. MPI will not be using the 2015 version of the MCT, until the February 2016 year end. MPI consistently uses a version of the MCT which is one year prior; this is because, for example, for the fiscal year ended February 2015 the 2015 MCT was only in draft form at that time (both guidelines and electronic files). Therefore, for the fiscal year end February 2015, MPI used the 2014 MCT. As a result, for the upcoming year end of February 2016, MPI will be using the 2015 MCT final version.
