

BW (MPI)

BW (MPI) 3-1

Reference: BW (MPI) 1-2(b)

With respect to IR 1-2b):

- a) Please provide the total number of registered vehicles in the City of Winnipeg (by postal code Forward Sortation Area (FSA - first three digits) of the registrant), by general class, since the inception of no-fault in 1994.
- b) If the FSA for Winnipeg is not used, please explain the method used to identify and count the registered vehicles for Winnipeg.

RESPONSE:

- a) The requested data is available commencing in 1996. Please refer to the attachment.
- b) Data by FSA has been provided as requested.

**Registered Vehicles in the City of Winnipeg
Grouped by Forward Sortation Area (FSA) and Registration Class
As of 1st of July, for each year**

BW (MPI) 3-3**Reference: BW (MPI) 1-2(b), (c)**

With respect to IR 1-2b) and IR 1-2c):

Please comment on the association and correlation of total number of registered vehicles in the City of Winnipeg with the total number of crashes (property only) and bodily injuries in Winnipeg.

RESPONSE:

The correlation between earned units, collision and P.I.P.P claims of passenger vehicles registered in the City of Winnipeg is positive, as shown in the table below.

Insurance Year	Earned Units	Collision Claims	PIPP Claims
2004	372,709	66,960	10,222
2005	376,245	64,353	9,121
2006	380,950	71,722	10,346
2007	388,788	72,806	10,355
2008	394,670	73,549	8,830
2009	400,403	70,902	8,200
2010	408,116	78,720	9,906
2011	417,670	74,153	10,057
2012	424,720	82,078	10,922
2013	431,553	87,089	11,292

Correlation	Earned Units	Collision Claims	PIPP Claims
Earned Units	1.00	0.90	0.42
Collision Claims		1.00	0.62
PIPP Claims			1.00

BW (MPI) 3-4**Reference: BW (MPI) 1-4**

With respect to IR 1- 4:

- a) Please provide the component expenditures from the Claims Incurred section of the 2015 Rate application (Volume II) that make up the stated "\$495.5 million (before expenses) Autopac physical damage claims"
- b) Please provide the component expenditures from the Claims Incurred section of the 2015 rate application (Volume II) that make up the stated "\$145.9 million on injury claims"
- c) Please explain the reasons for the difference between the stated "\$26.3 million paid to Manitoba Health" and the \$24.8 million for 2013/14 of Manitoba Health payments in section CI 8.2 of the 2015 GRA
- d) Please provide "MPIs Contribution to Manitoba's Economic Landscape" for physical damages, injury claims, and Manitoba Health payments as stated for 2013/14, and back 10 years.

RESPONSE:

- a) Physical damage claims include payments related to the following Basic coverages: collision, comprehensive and property damage. There are also additional claims related financial provisions. Please refer to Volume II Claims Incurred, Exhibits 5 to 7 for claims payments by coverage.
- b) Injury claims include the following benefit types: Weekly Indemnity, Accident Benefits, PIPP Enhancements and Public Liability on bodily injury. Please refer to Volume II Claims Incurred, Exhibits 1 to 4 for expenditures by benefit type.
- c) The \$26.3 million represents payments made to Manitoba Health and for medical consultants' fees, whereas the \$24.8 million represents payments to Manitoba

Health only. Please refer to Volume II Claims Incurred, Exhibit 8 for details on CI.8.2, Unallocated Loss Adjustment Expenses.

d)

Year	Physical Damage	Injury Claim	Manitoba Health
2013/14	\$495.5	\$145.9	\$26.3

BW (MPI) 3-5

Reference: BW (MPI) 1-7

With respect to IR 1-7:

- a) Please outline the efforts the Corporation has made in the last 5 years to discover the road safety activities, programs and evaluations done by SAAQ in Quebec.
- b) Please provide the hyperlinks or exact citation of the B.C. documents referred to in 1-7c)

RESPONSE:

- a) The Corporation is informed of road safety programs undertaken by the SAAQ through its participation on the Canadian Council of Motor Transport Administrators (CCMTA).
- b) The referenced information can be accessed through the following link:

<http://www.icbc.com/about-icbc/company-info/Pages/BCUC-regulation-of-ICBC.aspx>

BW (MPI) 3-6

Reference: BW (MPI) 1-8(a), (b)

With respect to IR 1-8 a) and b):

Please indicate any new or amended plans or programs that seek to change the road safety behaviour of drivers of motor vehicles towards vulnerable road users.

RESPONSE:

Refer to CAC (MPI) 1-192.

BW (MPI) 3-7

Reference: BW (MPI) 1-10

With respect to IR 1-10:

- a) Please indicate whether or not the statistics provided in IR 1-10a), particularly regarding 2011 and 2012, have been affected by any changes in accident reporting processes with the Police, City, or MPI. If so, please outline those changes.

- b) Please outline MPI's interpretation of the following contributing factors to cycling injuries:
 - (i) Driver Action - Driving Properly and Human Condition

 - (ii) Failing to Yield Right of Way

- c) Please outline MPI's new or amended plans or programs to address the complacency of drivers towards injury of cyclists.

RESPONSE:

- a) Yes, collision statistics for 2011 and 2012 are affected by changes introduced in 2011 that result in use of two data sources for traffic collision data; traffic collision reports completed by police and traffic collision reports filed with the Corporation when collision claims are registered. This reporting change resulted in a significant increase in traffic collision counts, specifically for collisions resulting in property damage-only and minimal injuries, both of which were historically under-reported using only police-reported data.

- b) "Driving properly" means the driver was proceeding with due regard for other road users and cannot be faulted for the accident. "Apparently normal" means the driver's human condition was apparently normal, and cannot; therefore, be

faulted for contributing to the accident. Combined, this is an indication that the driver cannot be faulted for contributing to the accident.

“Failed to yield right-of-way means the driver made an unsafe left or right turn, or did not yield the right-of-way when required to do so. This includes failure to yield from a driveway, at an uncontrolled intersection, or to oncoming traffic.

c) Refer to CAC (MPI) 1-192 and BW (MPI) 1-6.

BW (MPI) 3-8

Reference: BW (MPI) 1-12

With respect to IR 1-12:

Please indicate the years since the inception of no fault in 1994 that the phrase "Sharing the road", with or without further qualifying phrases or statements, has been used in programs or campaigns.

RESPONSE:

The Corporation does not track this data.

BW (MPI) 3-9

Reference: BW (MPI) 1-14

With respect to IR 1-14:

- a) Please indicate the number of road user victims, by victim type, that are caused by "collisions for which liability is assessed against drivers in the targeted age grouping currently over represented"
- b) Please indicate the number of road user victims, by victim type, that are caused by collisions for which liability is not assessed against drivers in the targeted age grouping currently over represented.
- c) Please indicate whether or not MPI expects a 2% decrease in bodily injury claims by vulnerable road users, including cyclists, as a result of its High School Driver Education Redevelopment project.

RESPONSE:

- a) Please see attached.
- b) Please see attached.
- c) As stated in BW (MPI) 1-14 (b), the targeted reduction would apply overall to all collisions for which liability is assessed against drivers in the targeted age grouping currently over-represented.

BW (MPI) 3-10

Reference: BW (MPI) 1-15

With respect to IR 1-15:

- a) Please indicate whether or not the content of the road test will be changed in order to achieve improvements of the Class 5 road test. If so, please indicate the intended changes.

- b) Please indicate the expected decrease in the number of new drivers from changing the road test passing grade from 50% to 75%.

RESPONSE:

a) and b)

Driver testing standards fall under administration of *The Drivers and Vehicles Act*, and are therefore not germane to the setting of Basic insurance rates.

BW (MPI) 3-11

Reference: BW (MPI) 1-17

With respect to IR 1-17:

- a) Please indicate whether or not incidents involving any type of vulnerable road users, including cyclists, lead to Driver Improvement and Control interventions, regardless of fault or no-fault status of the driver.

- b) Please provide a rationale for the response in a).

RESPONSE:

a) and b)

The Driver Improvement and Control program falls under administration of *The Drivers and Vehicles Act*, and is therefore not germane to the setting of Basic insurance rates.

BW (MPI) 3-12

Reference: BW (MPI) 1-18

With respect to IR 1-18

- a) Please provide the expected costs saved by one less fatality in 2015.
- b) Please indicate whether or not this expected cost is different by victim type. If there is a difference, please explain why.

RESPONSE:

a) and b)

Per the response to CAC (MPI) 1-200, over the 14-year period from 2000 to 2013, the cost per claim for "All Fatalities" was \$71,210. The Corporation expects the costs for 2015 to be close to this figure.

Further, the cost per claim for "Motor Vehicles" and "Vulnerable Road Users" over the same period were \$75,544 and \$71,289 respectively (with the cost per claim for "Unknown/Errors" at \$55,561). The Corporation does not view the cost per claim for "Motor Vehicles" and "Vulnerable Road Users" as being significantly different.

Differences in the cost of claim for fatalities are not driven by victim type. Regardless of whether the claimant was a pedestrian or a driver in a motor vehicle, fatality means the same thing in both situations. The Corporation's compensation to the claimant's significant others in the event of a fatality considers only the claimant's age, income, marital status and number of dependants.
