COALITION/COW I-2

Tab and Appendix:	City of Winnipeg Report	Page No. (and line no. if applicable):	Page
Topic:	Risk Analysis at Manitoba Hydro		
Sub Topic:			
Issue:			

Preamble to IR (If Any):

The City of Winnipeg Report states makes reference to Appendix 4.2 from the Manitoba Hydro Application and states: “In summary, the report concludes that after having run all of these various modeling’s where risk factors were varied, that the long-term financial viability of Manitoba Hydro was acceptable and sustainable under the assumed rate scenario of 3.95%.”

Question:

Please indicate where in Appendix 4.2 this conclusion can be found.

RESPONSE:

The report concludes that under the assumed rates, financial indicators would remain appropriate over the time period analyzed. Implicit in that conclusion is that financial viability is acceptable.
