

Undertaking #007

MPI to provide the average of the three point six (3.6) days for November '22 and the three point eight (3.8) days for November 2023 with the two decimal points instead of one.

RESPONSE:

A response to this Undertaking was provided *viva voce* by Mr. Scarfone on October 12, 2023 (see October 12 transcript page 752):

"So the numbers of three point six (3.6) were rounded from three point five nine (3.59), and the three point eight (3.8) number was rounded from three point eight two (3.82)."
