DID YOU KNOW?

An average house uses approximately 2,200m³ of natural gas per year. At Centra Gas/Manitoba Hydro's current variable quarterly Gas Commodity rate, that volume would cost \$_____ per year. At the Gas Marketer's fixed rate, it would cost \$_____ per year. This cost excludes other costs such as those arising from the Delivery Charge, the Basic Monthly Charge, and applicable taxes. Those costs apply regardless of which Gas Commodity supplier is chosen.

The information in this Rate Comparison was explained to you over the telephone when you agreed to the Intent to Buy. At that time, you confirmed that you understood this Rate Comparison.
