**Overview****Executive Summary**

<b>1</b>	<b>Introduction .....</b>	<b>1</b>
1.0	Chapter Overview .....	1
1.1	Approvals Sought .....	1
1.1.1	NFAT Terms of Reference.....	2
1.2	Needs For and Alternatives To Review and Submission.....	2
1.3	NFAT Submission: Explanation of Chapter Structure .....	3
1.3.1	Additional Regulatory Processes.....	6
1.4	Plan Proponent – Manitoba Hydro Organizational Profile.....	8
1.4.1	Development Principles .....	12
1.4.2	Integrated Planning Process.....	16
<b>2</b>	<b>Preferred Development Plan Facilities.....</b>	<b>1</b>
2.0	Chapter Overview.....	1
2.1	The Keyask Project.....	1
2.1.1	Keyask Ownership Structure .....	5
2.1.2	Keyask Project Components.....	7
2.1.3	Environmental and Socio-economic Effects.....	16
2.1.4	Regulatory and Community Reviews .....	31
2.1.5	Capital Cost Estimate .....	34
2.2	The Conawapa Project .....	37
2.2.1	Conawapa Ownership Structure .....	38
2.2.2	Conawapa Project Components.....	39
2.2.3	Environmental and Socio-economic Effects.....	45
2.2.4	Regulatory Reviews .....	51

---

2.2.5	Capital Estimates.....	51
2.3	North-South Transmission System Upgrade Project.....	53
2.3.1	Project Components.....	53
2.3.2	Project Ownership.....	54
2.3.3	Environmental and Socio-economic Effects.....	54
2.3.4	Regulatory Review.....	55
2.3.5	Capital Cost.....	55
2.4	Manitoba-Minnesota Transmission Project.....	56
2.4.1	Project Components.....	56
2.4.2	Project Ownership.....	58
2.4.3	Regulatory Process.....	58
2.4.4	Environmental and Socio-economic Effects.....	58
2.4.5	Capital Cost.....	58
3	Trends and Factors Influencing North American Electricity Supply.....	<b>1</b>
3.0	Chapter Overview.....	1
3.1	Introduction.....	1
3.2	North American Electric Load Growth.....	3
3.3	Energy and Environmental Policies.....	9
3.3.1	Global Perspective.....	11
3.3.2	U.S. National Policy Perspective.....	14
3.3.3	Canadian National Policy Perspective.....	17
3.3.4	State and Provincial Policy Perspectives.....	18
3.4	Energy Price Considerations.....	22
3.4.1	Coal Pricing.....	23
3.4.2	Natural Gas Pricing.....	26

---

3.4.3	Oil Pricing .....	32
3.4.4	Electricity Pricing .....	33
3.5	Aging Generation Fleet .....	37
3.6	Summary .....	39
<b>4</b>	<b>The Need for New Resources.....</b>	<b>1</b>
4.0	Chapter Overview .....	1
4.1	Introduction .....	1
4.2	Total Demand on the Manitoba Hydro System .....	5
4.2.1	Manitoba Hydro’s Domestic Electricity Load .....	5
4.2.2	Demand Side Management.....	18
4.2.3	Manitoba Net Load.....	32
4.2.4	Export Commitments .....	34
4.2.5	Total Demand.....	34
4.3	Manitoba Hydro System Supply .....	35
4.3.1	Manitoba Hydro’s Generation Planning Criteria.....	35
4.3.2	Manitoba Hydro’s Base Supply of Power – Planning Assumptions.....	39
4.3.3	Summary of Manitoba Hydro System Supply .....	44
4.4	Need for New Resources .....	46
<b>5</b>	<b>The Manitoba Hydro System, Interconnections and Export Markets.....</b>	<b>1</b>
5.0	Chapter Overview .....	1
5.1	Manitoba Hydro’s Supply Resources .....	1
5.1.1	Hydro Generation.....	4
5.1.2	Thermal Generation .....	5
5.1.3	Wind Generation.....	6
5.1.4	Imports .....	6

---

5.2	Manitoba Hydro’s Transmission System and Interconnections .....	7
5.2.1	Transmission System Overview.....	7
5.2.2	Manitoba Hydro’s Transmission Interconnections Overview .....	10
5.2.3	Reliability Benefits of Interconnections .....	17
5.2.4	Economic Benefits of Interconnections .....	19
5.2.5	Drivers of Development of Transmission Interconnections.....	21
5.2.6	Committed Major Transmission Development at Manitoba Hydro .....	23
5.3	Properties of Manitoba Hydro’s Generating System.....	28
5.3.1	Surplus Energy by Design .....	31
5.3.2	Resource Diversity.....	32
5.4	Interconnected Power Markets .....	34
5.4.1	Electricity Market Structure .....	34
5.4.2	Midwest Power Markets .....	37
5.4.3	Canadian Export Markets.....	49
5.5	Renewable Energy Credits .....	53
5.6	MISO Market Outlook.....	55
5.6.1	Need for New Generation Capacity .....	55
5.6.2	Long-Term Nuclear Uncertainty.....	60
<b>6</b>	<b>The Window of Opportunity.....</b>	<b>1</b>
6.0	Chapter Overview .....	1
6.1	The Window of Opportunity – The Blending of the Perspectives .....	1
6.1.1	U.S. Customers Interested in New Manitoba Hydro Resources .....	1
6.1.2	Optimizing New Hydro Resources with a New Interconnection.....	2
6.1.3	U.S. Interest and Motivation to Develop New Transmission Interconnection .....	4
6.1.4	Timing is Important .....	5

---

6.2	Manitoba Hydro’s Major Export Customers’ Perspective .....	7
6.2.1	Expectation of Gradual Load Growth .....	7
6.2.2	Expected Retirements of Older, Smaller Coal Units.....	9
6.2.3	Expectation of Additional Costs due to Environmental Requirements.....	10
6.2.4	Desire for Portfolio Diversification.....	15
6.2.5	Expectations for Future Resource Requirements .....	17
6.3	Regional Perspective .....	20
6.3.1	Hydro- Wind Synergies in North America .....	20
6.3.2	Hydro - Wind Synergy in MISO .....	22
6.4	Manitoba Hydro Perspective .....	24
6.5	Development Plans with a New Interconnection.....	27
6.5.1	New Hydro Generation and Associated Transmission .....	27
6.5.2	Export Contracts.....	27
6.5.3	New Transmission Interconnection .....	29
<b>7</b>	<b>Screening of Manitoba Resource Options .....</b>	<b>1</b>
7.0	Chapter Overview .....	1
7.1	Resource Technology Screening .....	1
7.1.1	Resource Technology Characteristics.....	1
7.1.2	Screening Process.....	11
7.2	Resource Options Screening .....	20
7.2.1	Additional DSM Screening.....	20
7.2.2	Hydro Resource Options Screening.....	23
7.2.3	Natural Gas-Fired Resource Option Screening.....	28
7.2.4	Wind Resource Option Screening .....	31
7.2.5	Imports .....	34

---

7.3	Summary of Selected Resource Options.....	38
<b>8</b>	<b>Determination and Description of Development Plans .....</b>	<b>1</b>
8.0	Chapter Overview .....	1
8.1	Introduction .....	1
8.2	Formulation of Development Plans.....	3
8.2.1	Resource Option Descriptions.....	4
8.2.2	New U.S. Interconnection .....	7
8.2.3	Description of Development Plans.....	8
9	Economic Evaluations – Reference Scenario.....	1
9.0	Overview.....	1
9.1	Methodology for Economic Evaluation .....	1
9.1.1	Net Present Value.....	3
9.2	Manitoba Hydro’s Economic Evaluation Process .....	4
9.2.1	Plan-Specific Inputs .....	5
9.2.2	Revenue and Cost Cash Flows.....	7
9.2.3	Net Present Value Calculation.....	8
9.2.4	Outputs – Net Present Value.....	9
9.3	Economic Results – Reference Scenario.....	9
9.3.1	Reference Scenario Inputs .....	9
9.3.2	Reference Scenario Results – Net Present Value .....	13
9.3.3	Reference Scenario Results – NPVs Including Cash Transfers to the Province of Manitoba ....	23
9.3.4	Development Plans Selected for Economic Uncertainty Analysis.....	25
10	Economic Uncertainty Analysis – Probabilistic Analysis and Sensitivities .....	1
10.0	Chapter Overview .....	1

---

10.1	Probabilistic Analysis with Scenarios .....	2
10.1.1	Methodology .....	2
10.1.2	Inputs for Probabilistic Analysis with Scenarios.....	9
10.1.3	Analysis of Development Plans Using Scenarios.....	11
10.1.4	Probabilistic Analysis.....	15
10.1.5	Probabilistic Analysis Conclusions.....	36
10.2	Sensitivity Analysis.....	39
10.2.1	Drought .....	39
10.2.2	Climate Change .....	43
10.2.3	Manitoba Load .....	48
10.2.4	In-service Date Delay.....	53
10.3	Other Factors which Contribute to Uncertainty.....	53
10.3.1	Export Market Uncertainty .....	54
10.3.2	New U.S. Transmission Interconnection .....	56
10.3.3	Drought Worse than the Drought of Record.....	57
10.3.4	Species at Risk Act.....	57
10.3.5	Aboriginal and Community Relationships.....	59
10.4	Uncertainty Analysis Summary.....	60
11	Financial Evaluation of Development Plans .....	1
11.0	Chapter Overview .....	1
11.1	Overview and Methodology .....	2
11.2	Financial Evaluation Results – Customer Rates .....	7
11.3	Financial Evaluation Results – Net Debt, Fixed Assets, and Debt:Equity Ratio .....	12
11.4	Financial Evaluation Results – Retained Earnings and Drought .....	17
11.5	Financial Evaluation - Conclusions.....	22

---

12	Economic Evaluations – 2013 Update on Selected Development Plans .....	<b>1</b>
12.0	Chapter Overview .....	1
12.1	2013 Updated Reference Scenario Assumptions .....	1
12.1.1	Changes Between the 2012 and 2013 Electric Load Forecasts .....	2
12.1.2	Changes in Demand Side Management Forecast.....	4
12.1.3	Changes in Need for New Resources .....	5
12.1.4	2013 Electricity Export Price Forecast.....	7
12.1.5	Conawapa G.S. Earliest In-Service Date .....	7
12.1.6	Changes to Export Sales Agreement Assumptions .....	8
12.1.7	Discount Rate .....	8
12.2	Demand Side Management Sensitivity and Stress Test Assumptions.....	8
12.3	2013 Update Economic Analysis – Reference Scenario.....	9
12.3.1	2013 Update – Reference Scenario Development Plans .....	9
12.3.2	2013 Update – Reference Scenario Results .....	10
12.3.3	Comparison of 2012 and 2013 Reference Scenario Results .....	12
12.4	2013 Update – DSM Sensitivity and DSM Stress Test.....	14
12.4.1	2013- DSM Sensitivity 1.5 Times and 4 Times – Economic Analysis Results.....	16
12.5	Conclusions .....	23
13	Integrated Comparisons of Development Plans – Multiple Account Analysis.....	<b>1</b>
13.0	Chapter Overview .....	1
13.1	Multiple Account Benefit-Cost Analysis.....	2
13.1.1	Basic Objective and Approach.....	2
13.1.2	The Evaluation Accounts .....	4
13.2	The Resource Development Plans .....	16
13.2.1	Manitoba Hydro’s Preferred Development Plan.....	17

---

13.2.2	The Smaller Interconnection Alternative (K19/Gas24/250MW).....	18
13.2.3	Keeyask with No New Interconnection (K22/Gas).....	19
13.2.4	Gas Thermal with No New Interconnection (All Gas) .....	20
13.2.5	Summary .....	21
13.3	Evaluation by Account .....	22
13.3.1	Market Valuation Account .....	22
13.3.2	Manitoba Hydro Customer Account .....	24
13.3.3	Manitoba Government Account .....	28
13.3.4	Manitoba Economy Account .....	33
13.3.5	Environment Account.....	42
13.3.6	Social Account .....	57
13.3.7	Summary of Reference Scenario Assessment .....	64
13.3.8	Uncertainty and Risk .....	67
13.4	Conclusions .....	73
<b>14</b>	<b>Conclusions .....</b>	<b>1</b>
14.0	Chapter Overview .....	1
14.1	Supporting Background .....	2
14.2	Economic Evaluation of Development Plans Incorporating Gas Generation, Keeyask, Conawapa and Imports.....	6
14.2.1	All Gas Plan with No New Interconnection (Pathway 1).....	10
14.2.2	Plans with No New Interconnection (Pathway 2) .....	10
14.2.3	Comparing Plans with New Interconnections (Pathways 3,4 & 5) to Plans Without a New Interconnection (Pathways 1 & 2).....	11
14.2.4	Comparing 750 MW Interconnection and No WPS Sale Plans (Pathway 4) with 250MW Plans (Pathway 3) .....	11
14.2.5	750 MW Interconnection and WPS Sale Plans (Pathway 5).....	15

---

14.2.6	Summary of Economic Evaluations .....	16
14.3	Financial Evaluations of Development Plans .....	17
14.4	Multiple Account Summary and Evaluation of Development Plans.....	23
14.5	Factors Not Currently Included in Economic, Financial and Multiple-Account Evaluations.....	29
14.6	Comparison of Development Plan Implementation Pathways .....	33
14.6.1	Development Plans and Development Pathways .....	34
14.7	Preferred Development Plan Pathways.....	<b>49</b>
<b>15</b>	<b>Implementation and Risk Management Plan for Preferred Development Plan .....</b>	<b>1</b>
15.0	Chapter Overview .....	1
15.1	Pathways Associated with the Preferred Development Plan.....	4
15.2	New Long-Term Export Contract Agreements.....	7
15.2.1	Long-Term Export Contracts Associated with the Preferred Development Plan.....	7
15.2.2	Managing Export Contract Risk.....	8
15.2.3	Transmission Rights.....	11
15.2.4	Market Products.....	12
15.3	New U.S. Transmission Interconnection Project .....	13
15.3.1	Related Agreements.....	13
15.3.2	Reviews and Approvals .....	14
15.3.3	Project Delivery — MMTP.....	16
15.4	Keeyask and Conawapa Generation Projects .....	17
15.4.1	Agreements for Aboriginal Participation.....	17
15.4.2	Reviews and Approvals .....	19
15.5	Generating Station Project Delivery .....	24
15.5.1	Selection of Project Delivery Strategy.....	27

---

15.5.2	Keeyask Project Delivery Strategy and Contract Packaging.....	29
15.6	Project Management and Control for Generation Projects .....	33
15.6.1	Risk Management.....	33
15.6.2	Key Lessons Learned from Wuskwatim.....	36
15.6.3	Risk Management on Keeyask and Conawapa.....	37
15.6.4	Project Controls.....	41
15.7	Summary of Risk Mitigation Actions.....	45
