NOTICE OF DECISION

The Public Utilities Board (Board) approved a decrease in Stittco Utilities Man Ltd.'s (Stittco) propane commodity rate from \$0.8245/m³ to \$0.5558m³ for propane consumed on or after May 1, 2015. Propane is sold with no mark-up by Stittco. The impact of the decrease in the propane commodity rate, when combined with distribution rates and basic monthly charges, is an expected decrease of the average residential bill by approximately 12% depending on propane consumption.

Propane rates are reviewed quarterly in accordance with a Board-approved methodology. Distribution rates are reviewed annually and reflect operating costs, income taxes, depreciation and a provision for a rate of return on shareholder's investment.
