

News Release

August 24, 2011

In Order No. 110/11 dated August 24, 2011 the Public Utilities Board provided rationale, recommendations and comments related to Orders 172/09 and 136/10, the latter which revised water and sewer rates for the City of Portage la Prairie (City) for 2011 and 2012.

The Board recommends that the City:

- Continue its practice of sharing important information on a timely basis concerning the City's water and sewer utility with its customers;
- Continue holding open public meetings as the City's major capital expenditure plans develop; and
- Continue discussions related to contractual arrangements with the City's industrial customers.

This Order and the interim rate orders noted above, provide additional details and can be viewed on the Board's website: www.pub.gov.mb.ca.
