

## News Release

April 27, 2011

By Board Order 64/11, the Public Utilities Board (Board) approves a 6% decrease to Stittco Utilities Man Ltd.'s propane commodity rates, effective for propane consumed on or after May 1, 2011. The new commodity rate is expected to decrease the overall residential propane rate by approximately 3.6%.

The May 1 commodity rate change reflects a quarterly adjustment to rates to account for changes in commodity costs. Propane commodity costs have remained high the last three months, reflecting ongoing demand and the overall increase in the price of oil.

A copy of the Order, which contains additional information, may be reviewed on the Board's website [www.pub.gov.mb.ca](http://www.pub.gov.mb.ca), or be obtained through the Board's Office.
