

News Release

September 11, 2008

In Order No. 133/08 dated September 11, 2008, the Public Utilities Board (Board) approved the existing bulk water rate charged by the Rural Municipality of Winchester (R.M.), that being \$15.00 per thousand gallons.

While the current bulk water facility was built in 2007, the R.M. has been operating a bulk water facility for several decades. The Board received no complaints since service commenced, thus the Board approved the R.M.'s bulk water rate on a final basis.

A copy of this Order may be viewed on the Board's website www.pub.gov.mb.ca, or at the Board's Office.
