3.0 Board Findings 5

4.0 IT IS THEREFORE ORDERED THAT: 6

1.0 Executive Summary

In the Public Utilities Board's ("Board") Order 137/21, issued December 24, 2021, Manitoba Hydro's requested rate increases to raise additional General Consumers Revenue by 5% (or \$88 million per annum) were not accepted by the Board. Instead, the Board varied Manitoba Hydro's request and approved a 3.6% increase in General Consumers Revenue (or \$64 million per annum) effective January 1, 2022. The Board directed Manitoba Hydro to file revised rate schedules, a proof of revenues, and bill impact tables reflecting the Board's decisions in that Order.

The Board ordered a 3.6% increase in General Consumers Revenue, to be recovered through rate increases of varying levels for each customer class to more closely align the revenues from each class with Manitoba Hydro's average cost to serve each class based on Manitoba Hydro's most current Prospective Cost of Service Study. Rates for residential customers in the four remote communities comprising the Diesel Zone will be maintained at current levels, pending review of Diesel Zone rates by the Board.

On December 29, 2021, Manitoba Hydro filed revised rate schedules, a proof of revenues, and bill impact tables.

A summary of the average increase by customer class is provided below:

Customer Class	Average Increase
Residential	3.8%
General Service Small – Non-Demand	2.5%
General Service Small – Demand	3.6%
General Service Medium	3.8%
General Service Large 750V – 30 kV	3.8%
General Service Large 30 – 100 kV	3.8%
General Service Large >100 kV	3.8%
Area & Roadway Lighting	1.3%

Customers in the Residential class without electric heat using an average of 1,000 kilowatt-hours per month will see an increase of approximately \$4 per month. Residential customers with electric heat using an average of 2,000 kilowatt-hours per month will see an increase of approximately \$7 per month.

2.0 Manitoba Hydro's Compliance Filing

On December 29, 2021, Manitoba Hydro filed, for Board approval, revised rate schedules, an annualized proof of revenue schedule, and customer bill impact tables reflecting the Board's decisions in Order 137/21. Additionally, Manitoba Hydro filed its draft customer notification of the rate increases for Board approval.

Manitoba Hydro's revised rate schedules reflect the following:

- Lower than average increases to the General Service Small Non-Demand and Area & Roadway Lighting classes in order to continue to move the Revenue to Cost Coverage (RCC) ratio for these classes into the zone of reasonableness, previously established by the Board as 95% to 105%) over a 7-year period. The RCC ratio measures the ratio of the revenues from each class with the allocated cost to provide service to each class. The Board approved lower than average rate increases for classes with an RCC ratio above the accepted zone of reasonable RCCs.
- To achieve an overall 3.6% General Consumers Revenue increase approved by the Board, an average revenue increase of 3.8% is required for all other customer classes, namely the Residential, General Service Medium, and General Service Large customer classes.

- In Manitoba Hydro's rate structure, the individual rate components for the basic charges, demand charge and energy charges are common among the General Service Small Non-Demand ("GSSND"), General Service Small Demand ("GSSD"), and General Service Medium ("GSM") customer classes. Due to the constraint of this existing harmonized rate structure, the precise increases targeted for each class (2.4% for GSSND, and 3.8% for GSSD and GSM which are within the zone of reasonableness) were not achievable. Therefore the GSSD customer class is receiving a slightly less than average rate increase of 3.6%.
- Rates are maintained at current levels for the Diesel Zone Residential class, the Diesel Zone Government and First Nation Education energy charge, and the tail block energy charge for Diesel Zone General Service rates.

3.0 Board Findings

The Board finds the December 29, 2021 Compliance Filing by Manitoba Hydro to be in accordance with the decisions of the Board in Order 137/21.

The Board therefore approves the interim rate schedules in Manitoba Hydro's December 29, 2021 Compliance Filing.

4.0 IT IS THEREFORE ORDERED THAT:

1. The Rate Schedules included in Manitoba Hydro's Compliance Filing of December 29, 2021 and attached to this Order **BE AND ARE HEREBY APPROVED** on an interim basis for electricity consumed on and after January 1, 2022;
2. The interim rate increases approved in this Order will remain in effect only until November 15, 2022 unless Manitoba Hydro has filed a General Rate Application seeking rates for 2022/23 and to confirm the 2021/22 interim rate increases by that date.
3. Manitoba Hydro is to notify its customers of the approved rate increases. Manitoba Hydro is to include this customer notification in the first bill a customer receives that includes the revised rates. Manitoba Hydro's draft customer notification submitted December 29, 2021 **BE AND IS HEREBY APPROVED**.

Board decisions may be appealed in accordance with the provisions of Section 58 of *The Public Utilities Board Act*, or reviewed in accordance with Section 36 of the Board's Rules of Practice and Procedure. The Board's Rules may be viewed on the Board's website at www.pubmanitoba.ca.

DEFINITIONS

All Rates Schedules in the publication are applied on a MONTHLY basis except as noted.

The following expressions shall have the following meanings:

- a) “Basic Charge”: a fixed charge that that does not change with the amount of electricity used. This includes the direct costs of metering, portions of the distribution system, as well as billing administration.
- b) “Billing Demand”: The greatest of the following (expressed in kVA)
 - i. measured demand; or
 - ii. % of contract demand; or
 - iii. % of the highest measured demand in the previous 12 months.
- c) “Billing Month”: the period of time, generally 30 days, in which Energy and/or Demand is consumed and thereafter billed to the Customer.
- d) “Demand”: the maximum use of power within a specified period of time.
- e) “Demand Charge”: that portion of the charge for electric service based upon the electric capacity (kVA) consumed and billed on the basis of the billing demand under an applicable rate schedule.
- f) “Energy”: power integrated over time and measured or expressed in kilowatt-hours (kWh).
- g) “Energy Charge”: that portion of the charge for electric service based upon the electric energy (kWh) consumed or billed.
- h) “Kilo-Volt Amperes (kVA)”: also referred to as apparent power, is the product of the volts times current of a circuit divided by 1000. It is composed of both real and reactive power.
- i) “Kilowatt Hour (kWh)”: the basic unit of electric energy equal to one kilowatt of power supplied to or taken from an electric circuit steadily for one hour.
- j) “Measured Demand”: the highest demand recorded in the Billing Month.
- k) “Power Factor”: is the ratio of real power (kW) to apparent power (kVA) for any given load and time. Generally it is expressed as a percentage ratio.
- l) “Watt (W)”: the electrical unit of power or rate of doing work; the rate of energy transfer equivalent to one ampere flowing under a pressure of one volt at unity power factor.

RESIDENTIAL RATES

RESIDENTIAL - TARIFF NO. 2022-01

Basic Charge:	\$9.20
PLUS	
Energy Charge:	
All kWh	@ 9.324 ¢ / kWh
Minimum Bill:	\$9.20

Services over 200 amps will have \$ 9.20 added to the Basic Charge.

Applicability:

The Residential rate is applicable for all residential purposes as follows:

- a) individually metered single family dwellings including those in multiple residential projects and single or three phase farm operations served through the same meter if:
 - i. the connected business load does NOT exceed 3 kW; or
 - ii. the combined agricultural and residential load does NOT exceed a demand of 50 kW.

- b) services for personal use outside the home, such as residential water wells, private garages, boat houses and swimming pools (use can be for household, recreational and hobby activities).

- c) single metered multiple residential projects meeting all the following criteria:
 - i. monthly demand does not exceed 50 kVA;
 - ii. the meter serves four or less individual suites or dwelling units;
 - iii. none of the units are used for business purposes;
 - iv. individual dwelling units are:
 - self-contained rental apartments with common facilities; or
 - row housing with self-contained rental dwelling units and common facilities; or
 - buildings with condominium type dwellings incorporated under *the Condominium Act*; or individual residential services within a trailer park established prior to May 1, 1969.

RESIDENTIAL RATES

SEASONAL - TARIFF NO. 2022-02

Annual Basic Charge:	\$110.40
PLUS	
Energy Charge:	
All kWh	@ 9.324 ¢ / kWh
Minimum Annual Bill:	\$110.40

The account is billed twice a year, April and October, each for a six-month period. The April billing is for the Annual Basic Charge plus past winter season's consumption. The October billing is for the summer season's consumption only.

Applicability:

The Seasonal rate is applicable to customers outside of the Winnipeg area using less than 7,500 kWh per season and is for residential purposes on an individually metered service when usage is of a casual or intermittent nature.

DIESEL - TARIFF NO. 2022-03

Basic Charge:	\$8.08
PLUS	
Energy Charge:	
All kWh	@ 8.196 ¢ / kWh
Minimum Bill:	\$8.08

Applicability:

The Residential rate applies to all residential services in the Diesel Communities, provided the service capacity does not exceed 60 A, 120/240 V, single phase.

Applicability:

Available only for services continuously energized since November 11, 1969.

GENERAL SERVICE

0 TO NOT EXCEEDING 200 kVA

(Utility-Owned Transformation)

SMALL SINGLE PHASE - TARIFF NO. 2022-20

Basic Charge:	\$20.74
PLUS	
Energy Charge:	
First 11,000 kWh	@ 9.485 ¢ / kWh
Next 8,500 kWh	@ 7.277 ¢ / kWh
Balance of kWh	@ 4.492 ¢ / kWh
PLUS	
Demand Charge:	
First 50 kVA of Monthly Billing Demand	No Charge
Balance of Billing Demand	@ \$11.52 / kVA
Minimum Bill:	
Demand Charge PLUS Basic Charge	

SMALL THREE PHASE - TARIFF NO. 2022-21

Basic Charge:	\$33.69
PLUS	
Energy Charge:	
First 11,000 kWh	@ 9.485 ¢ / kWh
Next 8,500 kWh	@ 7.277 ¢ / kWh
Balance of kWh	@ 4.492 ¢ / kWh
PLUS	
Demand Charge:	
First 50 kVA of Monthly Billing Demand	No Charge
Balance of Billing Demand	@ \$11.52 / kVA
Minimum Bill:	
Demand Charge PLUS Basic Charge	

Accounts where the Monthly Billing Demand is 50 kVA or less within the past 12-month period:

ALL energy in excess of 11,000 kWh will be charged @ 7.277 ¢ / kWh.

Primary metering of multiple Utility-Owned transformation services has an additional 2% added to the kVA for each transformation greater than one. There is also a 1% reduction on recorded demand and energy to account for transformer losses.

Applicability:

The General Service Small Rate is applicable to:

- a) service with Utility-Owned transformation for all non-residential purposes including churches, community clubs and other community service and recreation facilities and all commercial and general purposes wherein the conduct of business activities or operation is associated with the distribution of goods and/or services.
- b) occupied dwellings where the connected business load exceeds 3 kW to not exceeding 200 kW.
- c) single metered multiple residential projects meeting any of the following criteria:
 - i. monthly demand exceeds 50 kVA to not exceeding 200 kVA ; or
 - ii. the meter serves five or more individual suites or dwelling units; or
 - iii. any of the units are used for business purposes.
- d) farm services:
 - i. without an occupied dwelling being used for agricultural or commercial purposes; or
 - ii. where the connected business load exceeds 3 kW to not exceeding 200 kW; or
 - iii. where the combined agricultural and residential load exceeds a demand of 50 kVA to not exceeding 200 kVA.

SEASONAL - TARIFF NO. 2022-22

Annual Basic Charge:	\$248.88
PLUS	
Energy Charge:	
First 66,000 kWh	@ 9.485 ¢ / kWh
Balance of kWh	@ 7.277 ¢ / kWh
Minimum Annual Bill:	\$248.88

SEASONAL THREE PHASE - TARIFF NO. 2020-27

Annual Basic Charge:	\$404.28
PLUS	
Energy Charge:	
First 66,000 kWh	@ 9.485 ¢ / kWh
Balance of kWh	@ 7.277 ¢ / kWh
Minimum Annual Bill:	\$404.28

The account is billed twice a year, April and October, each for a six-month period. The April billing is for the Annual Basic Charge plus past winter season's consumption. The October billing is for the summer season's consumption only.

Applicability:

The General Service Seasonal rate is applicable for businesses outside of the Winnipeg area whose:

- a) demand does NOT exceed 50 kVA;
- b) usage is of an intermittent or casual nature;
- c) consumption is primarily summer time and usage is limited in the winter; and
- d) business load is greater than 3 kW in a residence.

(Utility-Owned transformation)

MEDIUM - TARIFF NO. 2022-30

Basic Charge:	\$33.69
PLUS	
Energy Charge:	
First 11,000 kWh	@ 9.485 ¢ / kWh
Next 8,500 kWh	@ 7.277 ¢ / kWh
Balance of kWh	@ 4.492 ¢ / kWh
PLUS	
* Demand Charge:	
First 50 kVA of Monthly Billing Demand	No Charge
Balance of Billing Demand	@ \$11.52 / kVA

Minimum Bill:
Demand Charge PLUS Basic Charge

Monthly Billing Demand *

The greatest of the following (expressed in kVA):

- a) measured demand; or
- b) 25 % of contract demand; or
- c) 25% of the highest measured demand in the previous 12 months.

Primary metering of multiple Utility-Owned transformation services has an additional 2% added to the kVA for each transformation greater than one. There is also a 1% reduction on recorded demand and energy to account for transformer losses.

Applicability:

The General Service Medium rate is applicable to services where the registered demand exceeds 200 kVA and where the transformation is provided by the Corporation.

Customers who, by nature of their business, do not require service during the months of December, January, and February may qualify for the General Service Short-Term Power rate. For further details see page 17.

GENERAL SERVICE

SHORT-TERM POWER RATE

The General Service Short-Term application is available throughout the Province of Manitoba except in the Diesel Zone, for customers with services exceeding 200 kVA who, by the nature of their business, do not require service during the months of December, January, and February. Qualifying customers will be billed at, and subject to the conditions of, the appropriate General Service Medium or Large rate.

Services must be disconnected from 00:00 hours, December 1 to 24:00 hours, February 28/29. Customers may use up to a maximum of 1,000 kWh during these months for security purposes only (i.e. alarm system, security lighting) but must notify Manitoba Hydro each year in advance of their operation shutdown.

Service must be taken for a minimum of four months, normally consecutively, during the period March 1 to November 30. Customers will be subject to the same 25% ratchet provisions as applicable to General Service Medium and Large customers, with the exception that no ratchets will apply for the months of December, January or February unless the customer exceeds the 1,000 kWh per month allowable use during those months.

General Service Short-Term is NOT available in conjunction with other services at the same point of delivery.

UNMETERED SERVICES

Billed on the General Service Small Rate Tariff No. 2022-20 or 2022-21:

The Unmetered Service rate is applicable:

- a) for non-residential customers where the load is constant and the consumption is consistent and metering is unnecessary or undesirable, specifically including traffic signals, pedestrian walkway lighting, directional traffic signs, hazard flashers, cable television power amplifiers, telephone booths, transit shelters (both heated and unheated), cathodic protection rectifiers (for oil and natural gas pipelines), water gauge wells, highway traffic counters, governmental navigational lights (both nautical and aerial), municipal sirens and Canadian Emergency Measures Organization emergency siren alarms.
- b) for existing railway crossings, sign lighting and window lighting. Customers will be required to provide metering facilities if additional load is connected.
- c) for services such as fairs, summer midways, television production and welding schools where service is required for less than 30 days.
- d) for oil field pumping services connected prior to April 1, 1980 with oil pumping motors of the counter balanced (nodding or piston) type.

GENERAL SERVICE

SHORT-DURATION, INTERMITTENT RATE

TERMS AND CONDITIONS

General

Manitoba Hydro will supply short-duration, intermittent power and energy to customers whose operation requires short periods of high demand combined with overall, very low energy consumption.

The Corporation may regulate timing of the customer's demand requirements so that they do not coincide with other system peak demands.

The Corporation may interrupt the supply at any time, for any length of time and for any reason.

Conditions of Service

Qualifying customers will be billed at, and subject to the conditions of, the appropriate General Service Large or Medium rate with the following provisions:

- a) Measured demand will be reduced by 50% for billing purposes.
- b) Customers will be assessed a monthly energy entitlement based on a 1% load factor (monthly demand x 0.01 x 730) to be billed at the applicable General Service rate.
- c) Energy consumption in excess of the monthly energy entitlement will be billed at a rate equal to 10 times the usual applicable General Service rate.

Customers will be required to enter into a formal contract with Manitoba Hydro. The contract will document the above conditions as well as any others considered necessary due to the nature of a specific service.

Rate Application

The General Service Short-Term, Intermittent rate is available to all customers, except those in the Diesel Rate Zone, to customers qualifying for the General Service Large and General Service Medium rates.

90 LED (> 80 – 120 W)	\$ 9.84	\$ 16.24
150 LED (> 120 – 180 W)	\$ 11.72	\$ 17.65
250 LED (> 180 – 280 W)	\$ 11.89	\$ 23.77

Applicability:

The Seasonal Area and Roadway Lighting rate is available only outside the City of Winnipeg and is applicable for area and roadway lighting installed by agreement for Municipal Corporation, local government districts, Provincial and Federal Governments.

Lighting will be energized from May 1 to October 31 of each year and will be disconnected from November 1 to April 30.

AREA AND ROADWAY LIGHTING

SENTINEL LIGHTING RATE - *TARIFF NO. 2022-83*:

Watts	Rate Per Month	
	Flat Rate (Energy and Rental)	Metered (Rental Only)
100 HPS	\$ 12.06	\$ 8.30
150 HPS	\$ 15.96	\$ 11.35
175 MV	\$ 12.45	\$ 8.30
400 MV	\$ 20.59	\$ 11.35
60 LED	\$ 10.55	\$ 8.30
90 LED	\$ 13.90	\$ 11.35

Applicability:

Sentinel lighting is available for security lighting of private or public areas on a dusk-to-dawn basis throughout the Province of Manitoba. Rental units are intended for continuous year-round service and are not provided on a temporary basis.

Sentinel lighting is available for rental as follows:

- a) on a flat rate basis when connected directly to the Manitoba Hydro distribution system; or
- b) exclusive of electricity if connected to the customer's metered circuits.

AREA AND ROADWAY LIGHTING

DECORATIVE LIGHTING - *TARIFF NO. 2022-85*

Connected load @ \$1.070 / kW per night of scheduled use

Minimum Monthly Bill: \$21.92

Applicability:

The Decorative Lighting rate is applicable for new and existing unmetered municipally-owned decorative lights on frames or modules mounted on roadway lighting poles or ornamental standards and/or Christmas trees. The customer is required to advise the Corporation prior to any change in the nights contracted for operation and/or the connected lighting kilowatts.
